

## Fill in the gaps

Remember those walls I built	Gravity can't forget
Well, baby they're tumbling down	To pull me (12) to the ground again
And (1) didn't (2) put up a fight	Feels (13) I've been awakened
They didn't even make up a sound	Every (14) I had you breaking
found a way to let you in	The risk that I'm taking
But I never (3) had a doubt	I'm never gonna shut you out
Standing in the light of your halo	Everywhere I'm (15) now
got my angel now	I'm (16) by (17) embrace
t's like I've been awakened	Baby I can see your halo
Every rule I had you breaking	Pray it won't fade away
t's the risk that I'm taking	(I can feel) your (18) halo halo
ain't never gonna shut you out	(I can see) (19) halo halo halo
Everywhere I'm looking now	(I can feel) your halo (20) halo
'm surrounded by your embrace	(I can see) (21) halo halo halo
Baby I can see your halo	Halo, halo
You know you're my saving grace	Everywhere I'm looking now
You're (4) I need and more	I'm (22) by (23) embrace
t's written all over your face	Baby I can see your halo
Baby I can feel your halo	You (24) you're my (25) grace
Pray it won't (5) away	You're everything I need and more
(I can feel) your halo halo	It's written all over your face
(I can see) your halo halo	Baby I can feel your halo
(I can feel) your halo halo	Pray it won't fade away
(I can see) (6) halo (7) halo	(I can feel) your halo halo halo
Hit me like a ray of sun	(I can see) your halo halo halo
Burning (8) my (9) night	(I can feel) your halo halo halo
You're the only one that I want	(I can see) your halo (26) halo
Think I'm addicted to your light	
swore I'd never (10) again	
But this don't (11) feel like falling
