### Fill in the gaps

## At The Bottom Of Everything by Bright Eyes

So (1) was this woman	Strapped (16) to a chair
And she was on an airplane	We must stare, we must stare, we must stare
And she was flying to meet her fiance	We (17) take all of the medicines
Seaming high above the	Too expensive now to sell
The largest ocean on planet Earth	Set fire to the preacher who is promising us hell
And she was (2) to	And in the ear of every anarchist
(4) man	That sleeps but doesn't dream
Who you know she had tried	We must sing, we must sing, we must sing
To start conversations	It'll go like this, all right
And the (5) she had really heard	While my mother waters plants
him say	My father loads his gun
Was to (7) his bloody Mary	He says: "death will give us back to God
And she's sitting there	Just like the setting Sun
And she's reading this really (8) magazine	Is (18) to the lonesome ocean"
article	And then (19) splashed into the deep blue sea
About a Third (9) country that she can't	Oh, it was a wonderful splash
Even pronounce the name of and	We must blend into the choir
She is feeling	Sing ecstatic with the whole
Very bored, and very despondent	We (20) memorize nine numbers
And then (um) suddenly	And (21) we have a soul,
There was this huge mechanical failure	And in this endless race for property
And one of the engines gave out	And privilege to be won
And they started, just, falling	We must run, we must run
Thirty-thousand feet	We must (22) up in the belfry
The pilot is on the microphone and he	Where the (23) and moonlight laugh
He's saying "I'm sorry, I'm sorry, oh my God	We must stare into a crystal ball
I'm sorry" and apologizing	And only see the past
And she looks at the man and she says	And in the caverns of tomorrow
She says she says: "where are we going?"	With (24) our flashlights and our love
And (um) he looks at her	We must plunge, we must plung, we (25) plunge
And he says	And then we'll get down there
"We're going to a party	Way down to the very bottom of everything
It's a birthday party	And (26) we'll see it
It's your birthday party, happy birthday darling	Oh we'll see it, we'll see it, we'll see it!
We love you very, very, very	Oh my morning's coming back
Very, very, very much"	The (27) world's waking up
And then (um) he starts (10) this	All the city buses swimming past
(11) tune	I'm happy just because
And, it (12) of goes like this	I found out I am really no one
Is kind of: 1, 2, 1, 2, 3, 4	
We must talk in every telephone	
Get (13) off the web	
We must rip out all the epilogues	
From the (14) (15) we have read	
And in the face of every criminal
