ne congregation sang	And watch the circus arrive
Ne knelt and prayed	I don't stand (5) tryin' to (6) the
As we (1) before God	blame
On that beautiful day	But I'm hurtin' deep down inside
The church bells rang	All the pain an' all the grievin'
And the champagne flowed	When did we stop believin'
As our friends gather round	Too late now to stop the bleedin'
For the wedding photo	It's over
But here we are barely five (2) on	What's the sense in pointin' fingers
An' our whole world's fallin' apart	Who's the saint an' who's the sinner
All the plans we had together	They're ain't gonna be a winner
Jp in smoke and gone for ever	It's over
Poisoned by the lawyer's letter	Oh, my dear, what happened to us?
t's over	Tell me, where did it all go wrong?
don't want our kids to suffer	What's the use in keep on fightin'?
Can we talk to one another	All the tears, all the cryin'
You were once my light, my lover	Why do we keep denyin'?
t's over	It's over
Rumours and whispers tear me apart	In all the (7) I (8) I (9)
That I know you better than that	ya
nseparable were we	Don't forget our children's future
Nith a (3) in our sails	I would do whatever suits ya
Now I feel a chill wind	Oh yeah
On the marriage that failed	It's over
And I pray as I divided	It's over
They've taken (4) sides	Yeah, it's over
Now they'll all sit back
