

## Fill in the gaps

## While Your Lips Are Still Red by Nightwish

Sweet little words made for silence	Kiss, while (14) (15) are still red
Not talk	While he's still (16) rest
Young heart for love	While bosom is still untouched, unveiled
Not heartache	Hold (17) hand
Dark (1) for catching the wind	While the hand's still (18) a tool
Not to veil the (2) of a cold world	Drown into (19) while they're (20)
Kiss, while (3) lips are still red	blind
While he's (4) (5) rest	Love while the (21) still hides the withering
While bosom is still untouched, unveiled	dawn
Hold another hand	(Oh)
While the hand's still without a tool	Kiss, while your lips are still red
Drown into (6) (7) they're	While he's still (22) rest
(8) blind	While bosom is still untouched, unveiled
Love while the night still hides the (9)	Hold another hand
dawn	While the hand's still without a tool
First day of love never (10) back	Drown into eyes (23) they're (24)
A (11) hour's (12) a	blind
(13) one	Love while the night still hides the (25)
The violin, the poet's hand	dawn
Every thawing heart plays your theme with care
