

And it's a sad picture

eyes

Says we can beat this

Fill in the gaps

Because these things will change

The final blow (1) you	Can you feel it now?
Somebody else gets what you wanted again and	These walls that they put up
You know it's all the same	To hold us (6) will fall down
Another time and place	This revolution, the time (7) come
Repeating history and you're getting sick of it	For us to finally win
But I believe in whatever you do	We sing hallelujah
And I'll do anything to see it through	We sing hallelujah
Because these things will change	Tonight we stand
Can you feel it now?	Get off our knees
These walls that they put up	Fight for what (8) worked for all these years
To hold us back will fall down	And the battle was long
This revolution, the time will come	It's the fight of our lives
For us to finally win	But we'll stand up champions tonight
We sing hallelujah	It was the (9) (10) changed
We sing hallelujah	Do you see it now?
So we've been outnumbered	These walls that they put up
Raided and now cornered	To hold us back fell down
It's hard to fight when the fight ain't fair	It's a revolution
We're getting stronger now	Throw your hands up
Find things they never found	'Cause we never gave in
They might be bigger	And we sing hallelujah
But we're faster and (2) scared	We sang hallelujah
You can (3) away, say we don't need this	Hallelujah
But (4) something in (5)	

- 1. hits
- 2. never
- 3. walk
- 4. there's
- 5. your
- 6. back
- 7. will
- 8. we've
- 9. night
- 10. things

Fill in the gaps
