

Fill in the gaps

Does he tell you he loves you	I feel it every day
When you least (1) it?	And that's what makes a man
Does he flutter your heart	Not hard to understand
When he kisses your neck?	Perfect in every way
No scientist or biology	I see it in his face
It's obvious, when he's holding me	Nothing more to say
It's only natural that I'm so affected	It's in his D-D-D-DNA
(Oh) and my heart won't beat again	It's all about his kiss
If I can't feel him in my veins	Contaminates my lips
No need to question, I already know	Our energy connects
It's in his DNA (D-D-DNA)	It's simple genetics
It's in his DNA	I'm the X to his Y
And he just takes my breath away	It's the colour of his eyes
B-B-Breath away	He can do no wrong
I feel it every day	No he don't need to try
And that's what makes a man	Made from the best
Not hard to understand	He passes all the tests
Perfect in every way	Got my heart beating fast
I see it in his face	It's cardiac arrest
Nothing more to say	He's from a different strain
It's in his D-D-D-DNA	That science can't explain
It's the blue in his eyes	I guess that's how he's made
That helps me see the future	In his D-D-DNA
Fingerprints that (2) me covered for days	It's in his DNA (D-D-DNA)
(Yeah hey yeah)	It's in his DNA
Now I don't have any first degree	And he just takes my breath away
But I know (3) he does to me	B-B-B-Breath away
No need to work it out, it's so familiar	I feel it (6) day
(Oh)	And that's what makes a man (what makes a man)
And my heart won't (4) again	Not hard to (7) (to understand)
If I can't feel him in my veins	Perfect in every way (in every way)
No need to question, I (5) know	I see it in his face (in his face)
It's in his DNA (D-D-DNA)	Nothing more to say (nothing more to say)
It's in his DNA	It's in his D-D-D-DNA
And he just takes my breath away	
B-B-Breath away	

1. expect

- 2. leave
- 3. what
- 4. beat
- 5. already
- 6. every
- 7. understand
