### The Big Bang Theory by Barenaked Ladies

Our whole universe was in a hot dense state,  
Then nearly fourteen billion years ago expansion started.  
Wait...  
The Earth began to cool,  
The autotrophs began to drool,  
Neanderthals developed tools,  
We built a wall (we built the pyramids),  
Math, science, history, (1)\_\_\_\_\_ the  
mysteries,  
That all started with the big bang!  
"Since the (2)\_\_\_\_\_ of man" is really not that long,  
As every galaxy was formed in less time than it takes to sing  
this song.  
A fraction of a second and the elements were made.  
The bipeds stood up straight,  
The dinosaurs all met their fate,  
They tried to leap but they were late  
And (3)\_\_\_\_\_ all died (they froze (4)\_\_\_\_\_ asses  
off)  
The oceans and pangea

See ya wouldn't wanna be ya  
Set in (5)\_\_\_\_\_ by the same big bang!  
It all started with the big BANG!  
It's expanding ever outward but one day  
It will pause then start to go the other way,  
Collapsing ever inward, we won't be here, it won't be hurt  
Our best and brightest figure that it'll make an even bigger  
bang!  
Australopithecus would really have been sick of us  
Debating why were (6)\_\_\_\_\_ they're catching deer (we're  
catching viruses)  
Religion or astronomy, Encarta, Deuteronomy  
It all (7)\_\_\_\_\_ with the big bang!  
Music and mythology, Einstein and astrology  
It all started with the big bang!  
It all started with the big BANG!
