The Big Bang Theory by Barenaked Ladies

Our whole universe was in a hot dense state,
Then nearly fourteen billion years ago expansion started.
Wait...
The Earth (1)_____ to cool,
The autotrophs began to drool,
Neanderthals developed tools,
We built a wall (we built the pyramids),
Math, science, history, unraveling the mysteries,
That all started with the big bang!
"Since the dawn of man" is really not that long,
As every galaxy was formed in less time than it takes to sing
this song.
A fraction of a second and the elements were made.
The (2)_____ stood up straight,
The dinosaurs all met their fate,
They tried to leap but they were late
And they all died (they (3)_____ their asses off)
The oceans and pangea

See ya wouldn't wanna be ya
Set in motion by the (4)_____ big bang!
It all (5)_____ with the big BANG!
It's expanding ever outward but one day
It will (6)_____ then start to go the (7)_____ way,
Collapsing (8)_____ inward, we won't be here, it won't be hurt
Our best and (9)_____ figure that it'll make
an even bigger bang!
Australopithecus would really have been sick of us
Debating why (10)_____ here they're catching deer
(we're catching viruses)
Religion or astronomy, Encarta, Deuteronomy
It all started with the big bang!
Music and mythology, Einstein and astrology
It all started with the big bang!
It all started with the big BANG!
