

When I'm dead and hit the ground

## Fill in the gaps

| Was a (1) and dark December      | A love back home it unfolds      |
|----------------------------------|----------------------------------|
| From the (2) I remember          | If you love me                   |
| There was snow                   | Won't you let me know?           |
| White snow                       | I don't (12) to be a soldier     |
| Clearly I remember               | With the (13) of (14) sinking    |
| From the (3) (4) (5)             | ship                             |
| watching                         | With snow, far below             |
| While we (6) down below          | So if you love me                |
| When the future's architectured  | Why'd you let me go?             |
| By a (7) of (8) on show          | I took my (15) down to (16) hill |
| You'd better lie low             | There we sat in snow             |
| If you love me                   | All (17) (18) she was            |
| Won't you let me know?           | (19) still                       |
| Was a (9) and (10) December      | So if you love me                |
| When the banks became cathedrals | Won't you let me know?           |
| And the fog                      | If you (20) me,                  |
| Became God                       | Won't you let me know?           |

| And the cross was held aloft     |                                  |
| Bury me in honor                 |                                  |
|                                  |                                  |
