

I've got you

## Fill in the gaps

Back (1) all my little (2)		I don't need nothing (8) than you
(3) so important		I got everything
Every pot of gold (4) and (5)	of	I've got you
distortion		This weight's too much alone
Heaven was a place still in space not in motion		Some days I can't hold it at all
But soon		You take it on for me
I got you		When tomorrow's too much
I got everything		I'll (9) it all
I've got you		I've got you
I don't need nothing more than you		And when tomorrow's too much
I got everything		I'll carry it all
I've got you		I got you
We (6) walking through the hills		I got you
Trying to pretend that we both know		I got everything
Maybe if we save up		I've got you
We can build a little home		I don't need nothing more than you
But then the hell (7) came and yelled		I got everything
You need to let go		I've got you
You've got no control		
No		
I got you		
I got everything
