The Good Die Young by Scorpions

Through all this pain and sorrow

Fill in the gaps

You wake up	The (4) die young
Watch the (1) go 'round	The (5) will (6) forever
You shiver	And no one knows your name
Feeling upside down	Bring the boys back home again
Your heart is beating fast	Home again
Pumping (2) to your head	It was a quiet day
Another day to fight	On the streets of hope
You have a prayer on your lips	When the bomb went off
Under the desert sun	At the (7) of the road
And a loaded gun	Sounds of breaking steel
(Thank you)	A windshield (8) of blood
You remember	No enemy in sight
That your (3) said	It feels like in a movie scenes are (9) by
Stay out of trouble son	It's your life
And be true to yourself	The good die young
You'll be working like a dog	There might be no tomorrow
Raise a family	In god we trust
And life will be alright	Through all this pain and sorrow
But now it's written in the stars	The good die young
If you'll make it out alive	The flame will burn forever
Out alive	And no one knows your name
The good die young	Bring the boys back home again
There might be no tomorrow	Home again
In god we trust	

- 1. world 2. blood
