#### A Thousand Kisses Deep by Leonard Cohen

| The ponies run, the (1) are           | young  | I blessed our remnant fleet           |
|---------------------------------------|--------|---------------------------------------|
| The odds are there to beat            |        | And then consented to be wrecked      |
| You win a while, and then it's done   |        | A thousand (7) deep                   |
| Your little winning streak            |        | I'm turning tricks, I'm getting fixed |
| And summoned now to deal              |        | I'm back on Boogie street             |
| With (2) (3)                          | defeat | I guess they won't exchange the gifts |
| You live your life as if it's real    |        | That you were meant to keep           |
| A thousand kisses deep                |        | And quiet is the thought of you       |
| I'm turning tricks, I'm getting fixed |        | The file on you complete              |
| I'm back on Boogie Street             |        | Except what we forgot to do           |
| You lose your grip, and then you slip |        | A thousand kisses deep                |
| Into the masterpiece                  |        | And sometimes when the night is slow  |
| And maybe I had miles to drive        |        | The wretched and the meek             |
| And promises to keep                  |        | We gather up our hearts and go        |
| You ditch it all to stay alive        |        | A thousand kisses deep                |
| A thousand kisses deep                |        | The ponies run, the girls are young   |
| And sometimes when the night is slow  |        | The odds are there to beat            |
| The (4) and the mee                   | ek     | You win a while, and (8) it's done    |
| We gather up our (5) and go           |        | Your little winning streak            |
| A thousand kisses deep                |        | And summoned now to deal              |
| Confined to sex, we pressed against   |        | With your invincible defeat           |
| The limits of the sea                 |        | You live your life as if it's real    |
| I saw there were no oceans left       |        | A thousand kisses deep                |
| For (6) like me                       |        |                                       |
