

Fill in the gaps

So you never knew love			Please	
Until you crossed the line of grace			Get up off (6)	_ knees, now
And you (1)	(2)	wanted	Please	
Until you'd someone slap your face			Please	
And you never felt alive			Please	
Until you'd almost wasted away			Leave it out	
You had to win			'Cause love is pain	
You couldn't just pass			And love is tough	
The (3) ass			But (7) is not	
At the top of the class			What you're thinkin' of	
Your flyin' colors			September	
Your family tree			Streets capsizin'	
And all your lessons			Spillin' over down the drains	
In history			Shards of glass	
Please			Splinters like rain	
Please			But you could only feel	
Please			Your own pain	
Get up off your knees, now			October, talk gettin' nowhere	
Please			November	
Please			December	
Please			Remember, we (8) startin' again	
Leave it out			Please	
So you never knew			Please	
How low you'd stoop to make that call			Please	
And you never knew			Get up off your knees now	
What was on the ground			Please	
Until they made you crawl			'Cause love is big	
So you never knew			Is bigger than us	
That the heaven you keep			But love is not	
You stole			What you're thinkin' of	
Your catholic blues			It's what (9) deal	
Your convent shoes			It's what lovers steal	
Your stick on tattoos			You (10) I've found it hard to receive	
Now they're makin' the news			'Cause you	
Your holy war			My love	
Your (4)	star		I could never	
Your sermon on the mount			Believe	
From the (5) of your car
