

But when she calls out his name in bed

## Fill in the gaps

| I'm seeing (1) girl                             | That's where I draw the line                |
|---|---|
| And she (2) might be out of her mind            | You (8) me a hundred time                   |
| Well she's got baggage                          | How your father left and he's gone          |
| And it's all the emotional kind                 | But I wish you wouldn't call me daddy       |
| She talks about closure and that validation bit | When we're gettin' it on                    |
| I don't (3) to be insensitive                   | And I say (yehe, yehe)                      |
| But I really hate that                          | Oh man she's got issue                      |
| And I say (yehe, yehe)                          | And I'm (9) pay                             |
| Oh man she's got issue                          | (Yehe, yehe)                                |
| And I'm gonna pay                               | She's playing the victim                    |
| (Yehe, yehe) She thinks she's the victim        | And taking it all out on me                 |
| Yeah  | (Yehe, yehe)                                |
| Now I know she'll feel abandoned                | My god she's got issue                      |
| If I don't stay over late                       | And I'm gonna pay                           |
| And I know she's afraid to commit               | Gonna pay                                   |
| But it's (4) our second date                    | Gonna pay                                   |
| And I say (yehe, yehe)                          | Gonna pay                                   |
| Oh man she's got issue                          | Gonna pay                                   |
| And I'm gonna pay                               | Gonna pay                                   |
| (Yehe, Yehe)                                    | If you think I'm controlling                |
| She thinks she's the victim                     | Then why do you follow me around            |
| But she (5) it all out on me                    | If you're not co-dependent                  |
| I don't know why you're messed up               | Then why do you let others drag you down    |
| I don't (6) why your whole life is a chore      | I don't (10) why you're messed up           |
| Just do me a favor                              | I don't know why your whole life is a chore |
| And check (7) baggage at the door               | Just do me a favor                          |
| Now she talks about her ex nonstop              | And check your baggage at the door          |
| Put I don't mind                                |   |
