

## Fill in the gaps

## The Stars (Are Out Tonight) by David Bowie

	They're (15) to make (16)
Stars are (1) sleeping	moves
Dead (2) and the living	But the stars are out tongiht
We live closer to the earth	
Never to the heavens	Here they are upon the stairs
The stars are (3) far away	Sexless and not aware
Stars are out tonight	They are the stars, they're (17) for you
They watch us from (4) their shades	But I hope they live forever
***, Jack and Kate and Brad	They burn you (18) their (19)
From hehind their (5) window stretch	smiles
Gleaming (6) blackened sunshine	Trap you with their beautiful eyes
Stars are never sleeping	They're broke and shamed or (20) or scared
Dead ones and the living	But I hope they live forever
Waiting for the first move	Their jealousy's spilling down
Satyrs and (7) child wives	The (21) stick together
Waiting for the last move	We will never be rid of (23) stars
Soaking up our (8) world	But I hope they (24) forever
Stars are never sleeping	And they (25) just what we do
Dead (9) and the living	That we (26) and turn at night
Their jealousy's spilling down	They're waiting to (27) their moves on us
The stars must (10) together	But the stars are out tonight
We (11) be rid of	Yeah
(13) stars	The (28) are out tonight
But I hope (14) live forever	The stars are out tonight
And they know just what we do	Yeah
That we toss and turn at night
