I must have dreamed a thousand dreams	Use them and let's start trying
Been hunted by a million screams	To make it a place worth living in
I can hear the marching feet	I remember long ago
They're moving into the street	When the sun was shining
Now did you read the (1) today?	And all the stars were bright all through the night
They say the danger's gone away	In the wake of this madness
But I can see the fire's still alight	As I held you tight, so (5) ago
Burning into the night	I won't be coming home tonight
There's too many men, too many people	My generation will put it right
Making too many problems	We're not (6) making promises
And not much love to go around	That we know we'll never keep
Can't you see, this is a land of confusion?	There's too many men
This is the world we live in	Too many people
And these are the (2) we're given	Making too many problems
Use them and let's start trying	And not much love to go around
To make it a place worth living in	Can't you see, this is a land of confusion
Superman, where are you now	This is the (7) we (8) in
When everything's (3) wrong somehow?	And these are the hands we're given
The man of steel, men of power	Use them and let's start trying
Are losing control by the hour	To make it a (9) worth fighting for
This is the time, this is the place	This is a world we live in
So we look for the future	And these are the names we're given
But there's not much love to go around	Stand up and let's start showing
Tell me why this is a land of confusion	Just where our (10) are going to
This is the world we live in	
And (4) are the hands we're given	

- 1. news
- 2. hands
- 3. gone
- 4. these
- 5. long
- 6. just
- 7. world
- 8. live
- 9. place
