

Until you're mine, I have to find

## Fill in the gaps

## Until You're Mine (Live) by Demi Lovato

My state of mind	A way to fill this hole inside
Has (1) got the best of me	I can't (3) without you (4) by my
I need you next to me	side
I'll try to find	Until you're mine
A way that I can get to you	Not gonna be even close to complete
I just wanna get to you	I won't rest until youre mine
The world I see is perfect now	Mine
You're all around	Just stop wondering
With you I can breathe	If we (5) meant to be
Until you're mine, I have to find	Forget about fate and just (6) me
A way to fill this hole inside	I'm ready to begin
I can't survive without you here by my side	The waiting has to end
Until you're mine	Right now, today
Not gonna be even close to complete	I've gotta find a way
I won't rest until you're mine	Yeah, yeah
Mine	Mine
Alone inside	Until you're mine
I can only hear your voice	Until you're mine
Ringing (2) the noise	Without you here by my side
I can't fight my mind	Until you're mine
Keeps on coming back to you	Not gonna be even close to complete
Always back to you	I won't (7) (8) you're mine
Wanted something out of reach	My state of mind
It's killing me	Has finally got the best of me
You're all I see yeah	I need you next to me
