

Right by your side

Fill in the gaps

If you were the Mona Lisa	Like a thief in the night
You'd be hanging in the Louvre	I stand in front of a masterpiece
Everyone would come to see you	And I
You'd be impossible to move	Can't tell you why
It seems to me	It hurts so much
Is what you are	To be in (7) with a masterpiece
A rare and (1) (2) of art	'Cause after all
Stay behind	Nothing's indestructible
Your velvet rope	Nothing's indestructible
But I will not renounce all hope	Nothing's indestructible
And I'm	Nothing's indestructible
Right by (3) side	And I'm
Like a thief in the night	Right by your side
I (4) in front of a masterpiece	Like a thief in the night
And I	I stand in front of a masterpiece
Can't tell you why	And I
It hurts so much	Can't tell you why
To be in love with the masterpiece	It hurts so much
'Cause (5) all	To be in love (8) a masterpiece
Nothing's (indestructible)	And I'm
From the moment I first saw you	Right by your side
All the (6) turned to bright	Like a thief in the night
An impressionistic painting	I stand in front of a masterpiece
Tiny particles of light	And I
It seem to me	Can't tell you why
Is what you're like	It hurts so much
The look but please	To be in love with a masterpiece
Don't touch me type	'Cause after all
And honestly	Nothing's indestructible
It can't be fun	'Cause after all
To always be the chosen one	Nothing's indestructible
And I'm
