

Fill in the gaps

I've been awake for a while now		Wherever it goes		
You've got me feeling like a child now		I always know		
'Cause every time I see your (1)	face	That you (6)	me smile	
I get the tinglies in a silly place		Please stay for a while now		
It starts in my toes		Just take your time		
And I crinkle my nose		Wherever you go		
Wherever it (2) I always know				
That you make me smile		I've been asleep for a (7)	now
Please stay for a while now		You tucked me in just like a child now		
Just take your time		'Cause every time you	(8)	me in (9)
Wherever you go		arms		
The rain is falling on my window pane		I'm comfortable enough to feel your warmth		
But we are hiding in a safer place		It starts in my soul		
Under the covers stayin safe and warm		And I lose all control		
You give me feelins that I adore		When you kiss my nose		
It starts in my toes		The feeling shows		
Makes me crinkle my nose		'Cause you (10) me smile		
Wherever it (3) I always know		Baby just take your time		
That you make me smile		Holding me tight		
Please stay for a while now		Wherever, wherever you go		
Just take (4) time		Wherever, wherever you go		
Wherever you go		Wherever you go		
What am I gonna say		I always know		
When you make me feel this way		'Cause you make me smile		
I just (mmm)		Even just for a while		
And starts in my toes				
Makes me (5) mv nose
