I have to start this over

#### Fill in the gaps

#### Something More by Secondhand Serenade

I lie awake again, my bodies feeling paralysed	There must be something more,
I cant remember when	Do we know what were fighting for?
I didnt live through this disguise	Breathe in breathe out
The words you said to me	And all these masks we wore
They couldnt set me free	We never knew what we had in store
Im stuck here in (1) life i didnt ask for	Breathe in (5) out
There must be something more,	I fooled everyone and now what (6) i become
Do we know what (2) fighting for?	I have to start this over
Breathe in (3) out	I have to (7) this over
And all these masks we wore	There must be (8) more,
We never knew what we had in store	Do we know what were fighting for?
Breathe in breathe out	Breathe in breathe out
The storm is rolling in	And all these masks we wore
The thunders loud it hurts my ears	We never knew what we had in store
Im paying for my sins	Breathe in (9) out
And its gunna rain for years and years	There must be something more
I fooled everyone and now (4) will i become?	Breathe in breathe out
I have to start this over	There must be something more
