I'd (1) to (2) my eyes, go numb	Bring you down
But there's a cold (3) coming from	Not everyone here
The top of the highest high-rise today	Is that ***** up and cold
It's not a (4) 'cause it blows hard	Remember why you came
Yes and it wants me to discard	And (8) you're alive
The humanity I know	Experience the warmth
Watch the warmth blow away	Before you grow
So don't let the world	So don't let the world
Bring you down	Bring you down
Not everyone here	Not everyone here
Is that ***** up and cold	Is (9) ***** up and cold
Remember why you came	Remember why you came
And while you're alive	And while you're alive
Experience the warmth	Experience the warmth
Before you (5) old	Before you grow old
So do you think I should adhere	Before you (10) old
To (6) pressing new frontier?	Where did it go?
And leave in my wake a trail of fear?	Where did it go?
Or should I hold my head up high	Where did it go?
And (7) a wrench in spokes by	Where did it go?
Leaving the air behind me clear?	
So don't let the world
