

My heart still beats

## Fill in the gaps

Inside this life		So I bid farewell
Under it's spell		The loving hand that saved me
I close my eyes		Held too tight
And live to tell		His darkness weighs on me at night
The hands we're dealt (1)	(2)	People change
disappear		And instantly
Death she grows near		I'm not the same girl
People change		I used to be
And instantly		I can't erase all the memories
I'm not the (3) girl		But I can explain
I used to be		If you're listening
I can't erase all the memories		People change
But I can explain		Not (4) me
If you're listening		I never asked or (5) to
People change		You (6) across my threshold
Not just me		How (7) you?
Locked up in silence		
A living hell
