

Fill in the gaps

This is not the end	I know what it (4) to (5) on
This is not the beginning	I know how it feels to lie
Just a voice like a riot rocking every revision	All I want to do
But you listen to the tone and the violent rhythm	Is trade this life for something new
Though the words sound steady	Holding on to what I haven't got
Something's empty within them	What was left when that fire was gone
We say yeah	I thought it felt right but that (6) was wrong
With fists flying up in the air	All caught up in the eye of the storm
Like we're (1) onto something that's	And trying to figure out (7) it's like moving on
invisible there	And I don't even know what kind of (8) I said
Cause we're living at the mercy of the pain and the fear	My mouth kept moving and my mind went dead
Until we dead it, forget it, let it all disappear	So I'm picking up the pieces, now where to begin
Waiting for the end to come	The hardest part of ending is starting again
Wishing I had strength to stand	All I (9) to do
This is not (2) I had planned	Is trade this life for something new
It's out of my control	Holding on to what I haven't got
Flying at the speed of light	This is not the end, this is not the beginning
Thoughts were spinning in my head	Just a voice like a riot rocking every revision
So many things were left unsaid	But you listen to the tone and the violent rhythm
It's hard to let you go	Though the words sound steady
I (3) what it takes to move on	Something's empty within them
I know how it feels to lie	We say yeah with fists flying up in the air
All I want to do	Like we're (10) onto something that
Is trade this life for something new	invisible there
Holding on to what I haven't got	Cause we're living at the mercy of the pain and the fear
Sitting in an empty room	Until we dead it, forget it let it all disappear
Trying to forget the past	
This was never meant to last	
I wish it wasn't so
