

## Fill in the gaps

| Why are we fighting                      | I can't look in the mirror               |
|--|--|
| Why are we lying                         | And see myself standing there            |
| Maybe God (1) (2) me out                 | All I see is an illusion                 |
| But he can't see the (3) in (4)          | Fighting a war (8) the (9) who           |
| crowd                                    | care                                     |
| Did I loose it all                       | No (10) for saving                       |
| How did I miss the call                  | Just set me free                         |
| Conform me to an image of a doll         | Once I was young now I'm old             |
| Break me up against his wall             | To see the truth (11) hides in me        |
| I can't look in the mirror               | I can't look in the mirror               |
| And see myself standing there            | And see myself (12) there                |
| All I see is an illusion                 | All I see is an illusion                 |
| Fighting a war against the ones who care | Fighting a war (13) the (14) who         |
| No need for saving                       | care                                     |
| Just set me free                         | No need for saving                       |
| Can you (5) forgive me                   | Just set me free                         |
| Words can't say the makings              | I just can't look in the mirror          |
| Buildings crumble down under             | And see (15) standing there              |
| And (6) crash at the sound of thunder    | All I see is an illusion                 |
| I (7) believed                           | Fighting a war against the (16) who care |
| Honesty was key                          | No (17) for saving                       |
| But I can't stay and live this way       | Just set me free                         |
| 'Cuz every time I stand you take it away |  |
