

## Fill in the gaps

## This Is Your Life (Live) by The Killers

|   | You know I'm on your side            |
|---|--------------------------------------|
| Candy talks to strangers                      | Wait for something better            |
| Thinks her life's in danger                   | No one behind you                    |
| No one gives a damn about her hair            | Watching (9) shadows                 |
| It's lonely (1) on (2) street                 | You gotta be stronger than the story |
| She used to go by Jackie                      | Don't let it blind you               |
| The cops, they'll steal (3) dreams            | Rivers of shadow                     |
| And they'll kill your prayers                 | This feeling won't go                |
| Take a number (4) the blood just barely dried | And the sky is (10) of dreams        |
| Wait for something better                     | But you don't know how to fly        |
| No one (5) you                                | I don't have a simple answer         |
| Watching your shadows                         | But I know that I could answer       |
| This feeling won't go                         | Something better                     |
| Crooked (6) tuning                            | This feeling won't go                |
| Children, are you learning                    | Wait for it                          |
| Climatize but don't you lose the plot         | Wait for it                          |
| A history of blisters                         | Wait for it                          |
| Your brothers and (8) sisters                 | Wait for it                          |
| Somewhere in the pages we forgot              |                                      |
| Take a number Jackie                          |                                      |
| Where the blood just barely dried             |                                      |
