

## Fill in the gaps

(Ah ah ah)		To (5)	(6)	tune
You must think I'm a fool		Don't look back		
So prosaic and awkward and all		If I'm a weight around your neck		
D'you (1) you	I've got me down?	Cos if you don't need me		
D'you think I've never (2) out of this town?		I don't need you		
Do I seem too eager to (3) to you now?				
You don't know me at all		I don't need you		
I can't turn it on, turn it off like you now				
I'm not like you now		Leaving so soon, soon		
Now you're here		Leaving, leaving so, soon		
I bet you're wishing you could disappear				
I'm trying to be kind		You're (7) so soon		
I get the (4)	you're just killing time	Never had a chance	e to bloom	
You look down on me		But you (8) so quick		
Don't you look down on me now		To change your tune		
You don't know me at all		Don't look back		
A slap in the face		If I'm a weight around (9) neck		
In the face for you now		Cos if you don't need me		
Just might do now		I don't need you		
You're leaving so soon				
Never had a chance to bloom				
But you were so quick
