## Fill in the gaps

### Dead To The World (Live) by Nightwish

| All the same, (1) me away            | All the same, (16) me away                     |
|--------------------------------------|--|
| We're (2) to the world               | We're dead to the world                        |
| The (3) gave (4) to the poet's       | Dead, silent, constant                         |
| world                                | Yet (17) changing                              |
| Gave comfort to the Fallen           | - My favorite view of this world               |
| (Heartfelt, lovelorn)                | As he died, he will return to die in me again  |
| Remaining, yet still uninvited       | Weaving the cloth, giving birth                |
| Those words scented my soul          | To the (18) Child                              |
| (Lonely soul, (5) soul)              | Who gave his life not for the world but for me |
| It's not the monsters (6) (7) bed    | Innocence reborn once more                     |
| It is the Man (8) door               | Heaven queen, (19) me                          |
| That makes you fear, makes you cry   | Away from all pain                             |
| Makes you cry for the child          | All the same, take me away                     |
| All the (9) are fought among (10)    | We're (20) to the world                        |
| lonely men                           | Heaven queen, (21) me                          |
| Unarmed, unscarred                   | In all that blue                               |
| I don't want to die a scarless man   | Little boy, (22) precious joy                  |
| A lonely soul                        | ls (23) to the world                           |
| (Tell me now (11) to do)             | Heaven queen, (24) me                          |
| I studied silence to learn the music | Away (25) all pain                             |
| I joined the (12) to (13)            | All the same, (26) me away                     |
| innocence                            | We're dead to the world                        |
| Heaven queen, cover me               | We're (27) to the world!                       |
| In all (14) blue                     |  |
| Little boy, such (15) joy            |  |
| Is dead to the world                 |  |
| Heaven queen, carry me               |  |
| Away from all pain                   |  |
