

## Fill in the gaps

## Goodbye town by Lady Antebellum

| Right there's the high-school where we met           | These streets are only bring me down           |
|--|--|
| We'd sneak out back                                  | Got to find a way to finally get out           |
| For a (1) kisses and a cigarette                     | Out of this goodbye town                       |
| And that (2) lot was our first date                  | I can't (12) the memories                      |
| And her momma slammed the (3)                        | And I can't burn the (13) (14)                 |
| When I dropped her off too late                      | down   |
| She's gone   | No (15) ain't nothing                          |
| Chasing that (4) wind                                | (16) but a (17) town                           |
| She's gone   | To (18) if I'm sticking around!                |
| She ain't coming back again                          | Got to (19) a way to finally get out           |
| This ain't nothing                                   | Out of (20) town                               |
| (5) but a (6) town                                   | Oh yeah, out of (22) goodbye town              |
| (7) streets are only bringing me down                | I'm out of this town                           |
| Got to find a way to (8) get out                     | So out of this town                            |
| Out of this (9) town                                 | You'll be just a memory in the back of my mind |
| We sat down on those courthouse steps                | You'll be just a memory yeah                   |
| Fourth of July those fireworks over our heads        | Oh, (23) in the back of my mind                |
| And they'd ring the (10) of that little church       | In the back of my mind                         |
| No, there ain't nowhere I can look that doesn't hurt | One day you're (24) to look back at what we    |
| She's gone   | had  |
| But I still feel her on my skin                      | You're going to think of me                    |
| She's gone   | You're going to (25) of me                     |
| But she ain't (11) back again                        | When I'm long gone                             |
| This ain't nothing                                   | I'll be long gone                              |
| Nothing but a goodbye town                           |  |
