

Fill in the gaps

Our lips forget to throb	I see through (13) (14) mouth
(1) engrossed in our talk over coffe	A memory of your nakedness
Across the table, sipping our drinks	Let's not (15) (16) words tonight
(2) and pointing to our fate	We both (17) vent to our feelings, yeah
Mingled smell pervades our talking	In the (18) of our coffe talk is (19)
Untroubled about who will dominate whom	Why not here as us
The way it should	In the quivering smell
If (3) were to endure	In the quivering smell
Let's not waste hard words tonight	In the (20) (21) we find
We both gave (4) to our feelings, uh	We find
In the (5) of our coffe talk is dead	(22) linger (23) and squeeze
Why not (6) as us	the night
In the quivering smell	Into this tiny little span
In the quivering smell	Our bodies just begun, they love talking
In the quivering smell	Let's not waste hard (24) tonight
We find	We both gave vent to our feelings, uh
As your (7) (8) the lips	In the peace of our coffe talk is blind
Of my cup as if they yours	Why not here as us
I no longer (9) for your kisses	In the quivering smell
Or the (10) of your skin	In the quivering smell
Or the (11) of (12) desire	In the quivering (25) we find
And though your dreams remain disguised	We find
In the advancing evening darkness
