

## Fill in the gaps

## No room for doubt by Lianne La Havas

| You (1) me, guilty                             | We all (14) mistakes, we do, I learnt           |
|--|---|
| Taking the (2) of you                          | (15) you  |
| That night, you (3) a flight                   | Please sleep softly, (16) me no room for doubt  |
| I couldn't decide what to do                   | Please sleep softly, (17) me no room for doubt  |
| I won't let a safe bet                         | Please (18) softly, leave me no room for doubt  |
| (4) to (5) me go blue                          | Please (19) softly, leave me no (20)            |
| I could go solo                                | for doubt                                       |
| But that'd be the right thing to do            | Leave me no room for doubt                      |
| We all (6) mistakes, we do, I learnt from you  | We all (21) mistakes, we do, I learnt from you  |
| We all make mistakes, we do, I learnt from you | We all make mistakes, we do, I learnt (22) you  |
| I tiptoe, too slow                             | We all make mistakes, we do, I learnt from you  |
| Out of the door to (7) house                   | We all make mistakes, we do, I learnt from you  |
| I (8) you know (9) (10) way                    | Please sleep softly, leave me no                |
| 11) me out                                     | (23) (24) softly, leave me no                   |
| Outside, too bright                            | room for doubt                                  |
| You're within I'm without                      | Please (25) softly, leave me no                 |
| You're within                                  | Please sleep softly, leave me no room for doubt |
| We all make mistakes, we do, I (12)            | (26) me no (27) for doubt                       |
| 13) vou  |   |
