## Something I need by One Republic

## Fill in the gaps

\_\_ time

\_ once

I had a dream the other night		And if we only die once
About how we only get one life		I want to die with you
Woke me up right (1)	two	You got something I need
I stayed awake and stared at you		In this world full of people
So I wouldn't lose my mind		There's one killing me
And I had the week that came from hell		And if we only die once
And yes, I know that you could tell		I want to die with you
But you're like the net under the ledge		I know that we're not the same
When I go flying off the edge		But I'm so (5) glad
You go flying off as well		That we made it to this time, (6)
And if you only die once		You got something I need
I want to die with		Yeah, in this world full of people
You got (2)	I need	There's one killing me
In this world full of people		And if we only die once
There's one killing me		I want to die with you
And if we only die once		You got something I need
I want to die (3) you		In (7) world full of people
You got something I need In this world full of people		There's one killing me
		And if we only die once
There's one killing me		I want to die with you
And if we only die once		You got something I need
I want to die with you		In this world full of people
Last night I think I (4)	too much	There's one killing me
Call it our temporary crunch		And if we only die once
With broken words I've tried to say it		I want to die with you
Honey don't you be afraid		If we only die once
If we got nothing, we got us		I want to die with
And if you only die once		If we (8) (9) or
I want to die with		I want to live with you
You got something I need		
In this world full of people		
There's one killing me
