## Thinking Out Loud by Ed Sheeran

## Fill in the gaps

| When your legs don't work like they used to before   |                                      | It's evergreen                              |       |
|--|--------------------------------------|---|-------|
| And I can't sweep you off of your feet               |                                      | And (7) your smile is forever               |       |
| Will your mouth still remember the taste of my love? |                                      | In my mind and memory                       |       |
| Will your eyes still smile from your cheeks?         |                                      | I'm (8) about how                           |       |
| Darling I will be loving you till we're seventy      |                                      | People fall in love in mysterious ways      |       |
| And baby my (1)                                      | _ could still feel as hard at twenty | And maybe it's all part of a plan           |       |
| three  |                                      | I'll just keep on making the same mistakes  |       |
| And I'm thinking about how                           |                                      | Hoping that you'll understand               |       |
| People fall in love in mysterious ways               |                                      | That baby now                               |       |
| Maybe just the touch of a hand                       |                                      | Take me into your loving (9)                |       |
| Well me I fall in love with you every single day     |                                      | Kiss me under the light of a thousand stars |       |
| And I just want to tell you I am                     |                                      | Place your head on my beating heart         |       |
| So honey now   |                                      | I'm thinking out loud                       |       |
| Take me into your loving arms                        |                                      | Baby we found love                          |       |
| Kiss me (2) the light of a (3)                       |                                      | Right where we are                          |       |
| stars  |                                      | So baby now                                 |       |
| Place your head on my beating heart                  |                                      | Take me into your loving arms               |       |
| I'm thinking out loud                                |                                      | Kiss me under the light of a thousand stars |       |
| Maybe we found love                                  |                                      | Oh darling, place your head on my beating   | heart |
| Right (4) we are                                     | е                                    | I'm (10) out loud                           |       |
| When my hairs all but gone                           |                                      | Baby we found love right where we are       |       |
| And my memory fades                                  |                                      | Baby we found love right where we are       |       |
| And the (5) don't remember my name                   |                                      | And we found love right where we are        |       |
| When my hands don't (6) the strings the same way     |                                      |   |       |
|  |                                      |   |       |
| I know you will still love me th                     | ne same                              |   |       |
| Because honey your soul cou                          | uld never grow old                   |   |       |
