I can't help feeling And reap just what you sow
We could have had it all
Rolling in the deep You're gonna wish you never had met me
You had my heart (6) your hand Tears are gonna fall
And you played it to the beat Rolling in the deep
Baby, I have no story to be told You're gonna wish you
But I've heard one on you We could have had it all
And I'm gonna make your head burn We could have had it all
See me in the depths of your despair Rolling in the deep
Making a home down there You had my heart inside of your hand
'Cause mine sure won't be shared But you played it
The scars of your (7) remind me of us You played it
They keep me thinking that we almost had it all You played it
The scars of your love, they leave me breathless You played it to the beat
I can't help feeling
We could have had it all
